Software

**CDR**

For over twenty-five years, CDR has established and nurtured long-term relationships with Wholesale Distributors by providing innovative software solutions.

## Manufacturer Reporting

SupplyLogic automatically collects, formats and transfers data needed for reporting to manufacturers, enabling the distributor to participate in wholesale trade programs.

- Cigarette Reporting
- Other Tobacco Reporting
- Candy Reporting

## Sales Analysis

SupplyLogic provides an interactive search tool that enables the user to analyze sales data based on several factors.

- Profit – Net, Gross
- Sales – Dollars, Quantity
- Market Share – Manufacturer, Brand
- Product – Category, Class, Item
- Customer, Salesperson

## Order Processing

SupplyLogic automates the entry, picking and invoicing of customer orders.

- Point-of-Sale for Cash & Carry
- Picking and Delivery
- Flexible Pricing
- Multiple Tax Jurisdictions
- Manufacturer Promotions

## Purchasing

Achieve optimal inventory levels and superior customer service using SupplyLogic purchasing functionality.

- Purchase Orders
- Receiving
- Product Demand
- Vendor Performance
- Vendor Price Comparison

## Inventory Control

Provides real-time control of warehouse operations, enabling distributors to increase sales, minimize inventory losses and increase profits.

- Inventory Value Analysis
- Control of Stamped Products
- Slot Locations
- Inventory Status Reports

## Accounts Receivable

Instant updating and seamless integration provide real-time business controls and reports.

- AR Balance Report
- Customers Over Credit Limit
- AR Transaction Summary
- Unapplied AR Transactions
- Daily Deposit Sheet
- Statements
